INTERNATIONAUX DE STRASBOURG

During my 6 months of internship at Quarterback, I worked on two tennis tournaments and my main mission was to develop the digital part. One of these event was "Les Internationaux de Strasbourg" and it's the biggest French women's tournament. In addition, I took care of social networks including various visual creations that I create, here are some examples.

DIMANCHE 02 OCTOBRE 2016

Chaque année, des dizaines de milliers de Canadiens participent à La Course à la vie CIBC de la Fondation canadienne du cancer du sein et contribuent à recueillir des fonds qui permettent de financer des programmes de recherche, d'éducation ainsi que des initiatives de sensibilisation au cancer du sein importants. Au fil des ans, votre soutien a aidé la Fondation canadienne du cancer du sein à financer des projets de recherche qui changent l'image du cancer du sein et nous aident à créer un avenir sans cette maladie.

La Course de cette année promet d'être une expérience enthousiasmante, enrichissante et mémorable pour tous les participants. Nous vous invitons à courir ou marcher avec nous dimanche, le 2 octobre à l'occasion de La Course à la vie CIBC 2016.

ALMATY FLYERS

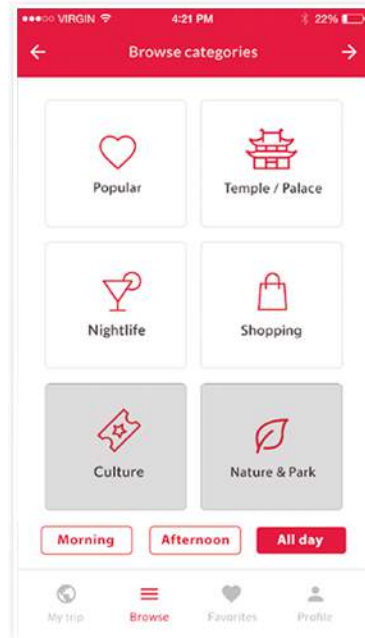

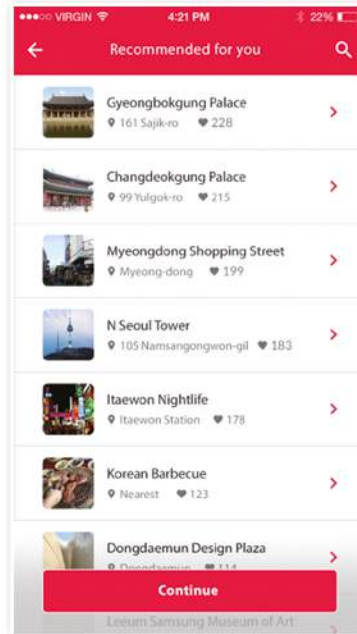

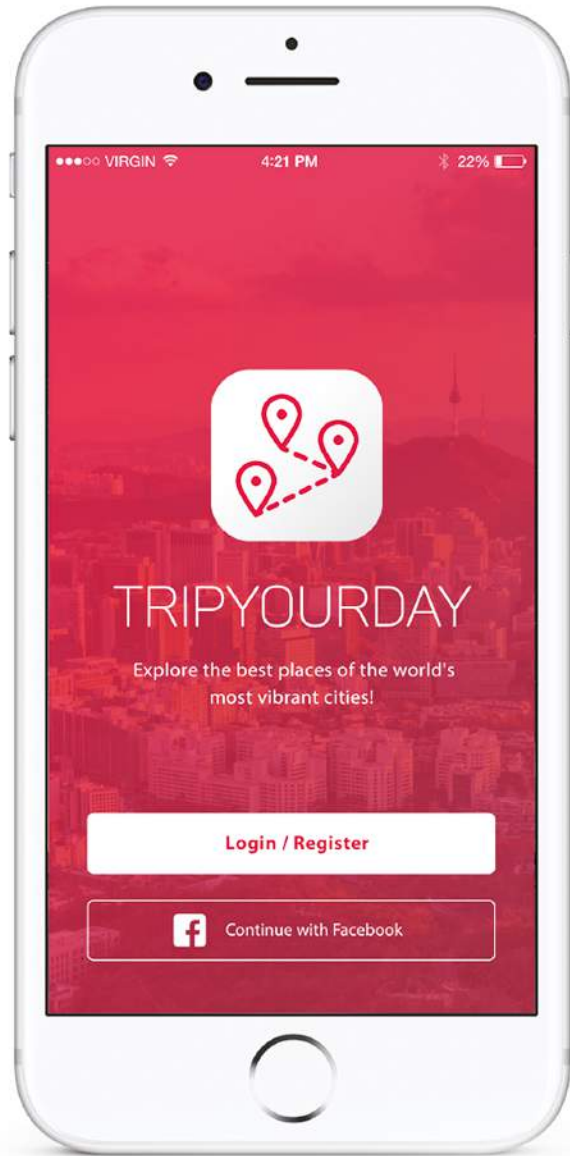

I made a flyer for the company "Royal-Group" where I did my last internship. They organised two concerts for Kazakhstan in Cannes (France), and they needed flyers for the promotion of the events. I wanted to do something colorful, representative and the fact that we can distinguish the universe of these two symphony orchestras is very important.

UBER EVENT

Uber Cities Challenge was a school project. We organized this fictional event in order to increase the satisfaction rate of Uber drivers. This will take place in two days: the first night there is a reception in a hotel and then the next day, there will be competitions in team on a racetrack. Here are the posters, there is one for each city where Uber is implanted.

LA BANQUE POSTALE

For a school project, we had to establish the communication on social medias of this bank. I decided to create a super hero who will represent the bank and each participant of the contest will speak about a person who inspires him with the hashtag MonHérosEst. At the end of the contest, a person will be randomly selected and will win a trip with all his family.

UBER SOCIAL MEDIA

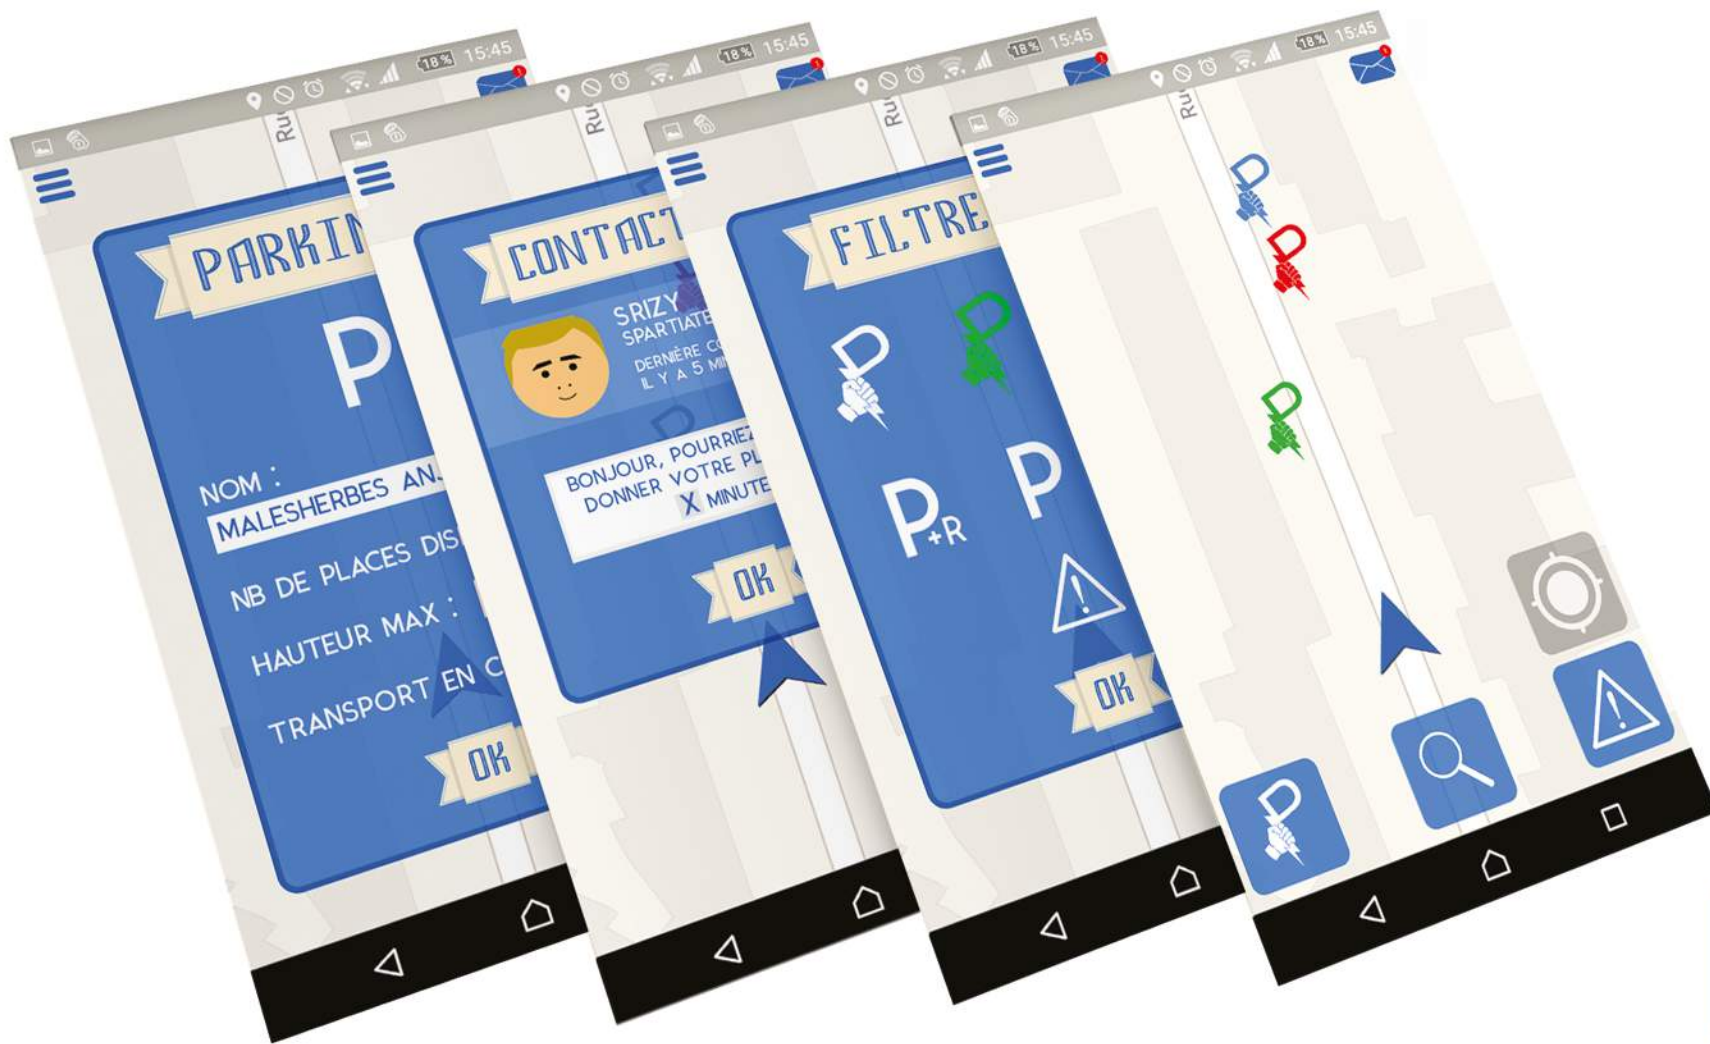

The purpose of this exercise was to create a communication campaign on social networks for UberPool. Our main target was young people between 18 and 28, who are likely to use this service. Our communication was centered around the themes of meeting and sharing, which justifies these three Facebook posts.

FLYERS PARKEUS

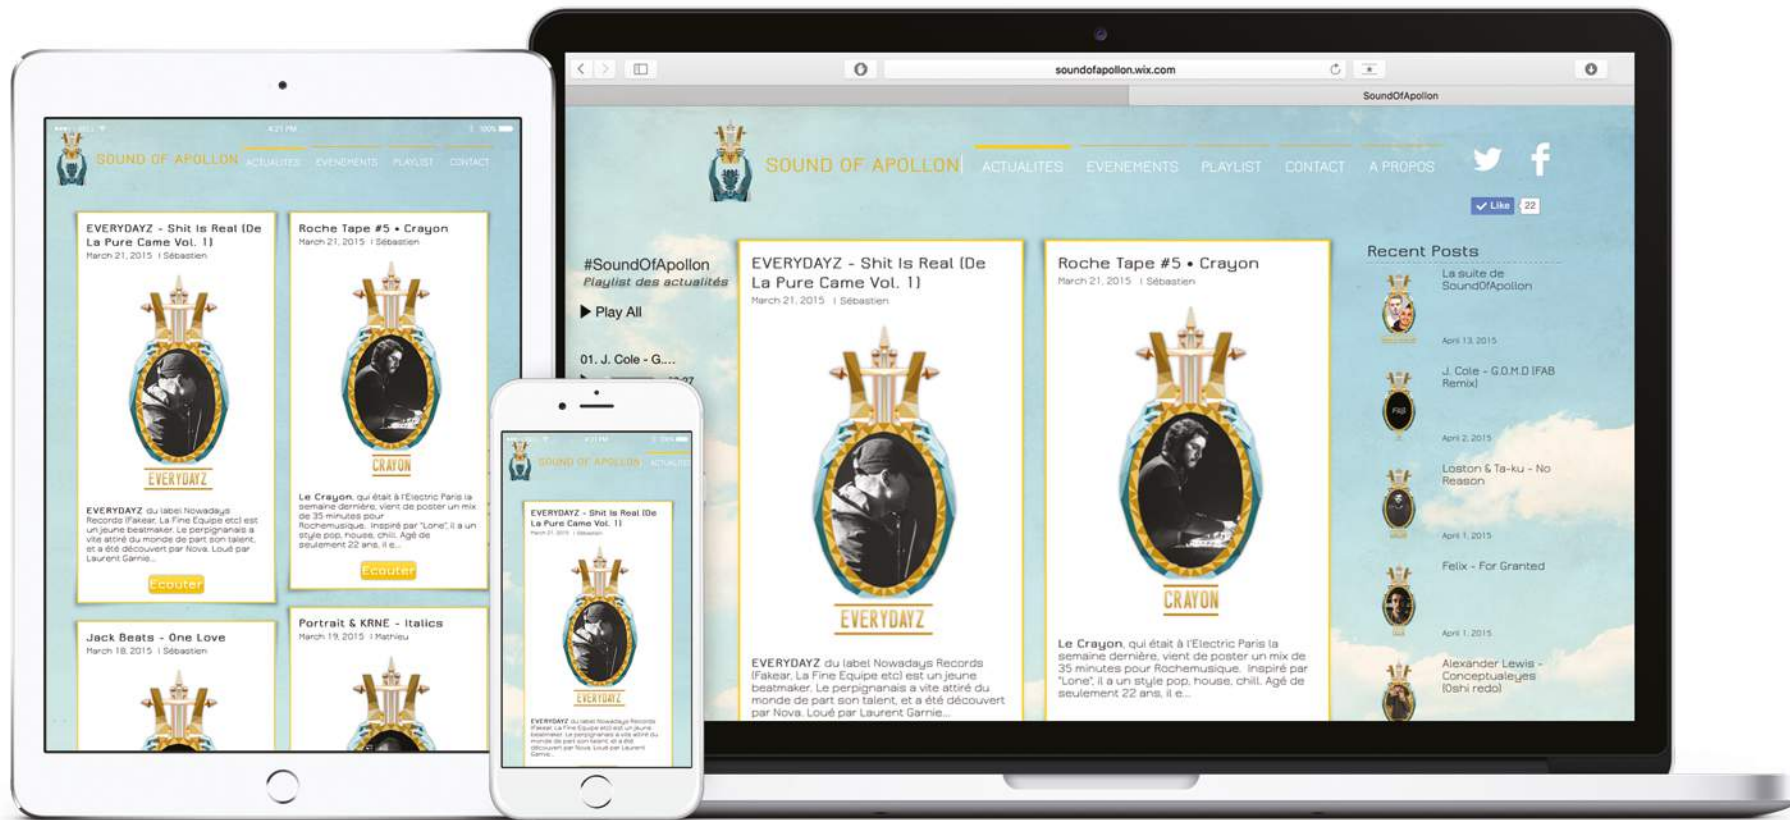

“Parkeus” is my agency project. We created an application for Android to help and simplify the daily life of Parisian drivers. This is a community application showing real-time places available in Paris. I was in charge of communication (promotion of the project) and graphic design. This is the flyer that I created and we distributed it in the streets of Paris. It describes the main features of the application and shows Parkeus, the god of parking, who indicates a parking spot that will be available.

Size: 8,26 in x 5,82 in

SMARTPHONE APP

For the same project, I created and brainstormed the graphical interface for our smartphone application. The interface had to be clear because the driver has no time to lose. As a result, the buttons, the icons and the information must be easily visible and clickable. Finally, the design is in accordance with our graphic charter.

SOUND OF APOLLON

With a partner, we created a website promoting electronic music, nightlife and coming events to come in Paris. Apollo is the god of music and to design the website and the logo, we used two main colors: gold and teal. In addition to that, we have a Twitter and Facebook page and this project was very successful.

BLACK TIGERS

For this project, I created a brand identity for a fictional soccer team. I began by creating a logo with Illustrator for "Black Tigers". Then, I designed two jerseys for games: one home and one away, with Photoshop. I was inspired by the jerseys that Nike made. I wanted to make a simple, classic black and white style.

BIG BAND POSTER

For my university in Montreal, Vanier College, I have made a poster for the annual big band benefit concert. I imagined a visual in a gold and vintage style that represents well the era of big band. I had the constraint to incorporate important information such as artist names, date, location, price and the sponsors of the event.

TOURNE-SOL

For this project, I had the task of rebranding a logo for the Co-operative Farm - Tourne-Sol based near Montreal. I imagined a new logo incorporating the emblem of the farm and by modernizing it. In addition, I created a business card, a letter and a form for this company.

LE DANDY

Every time I go to the barber, I observe the design of different products, their packaging, their labeling. They are always successful! I decided to "create" my own barber shop and invent products such as oil for beards and after-shave. I used a style that reflects the vintage style of barbershops in France.

PERSONAL BRANDING

For my logo, I wanted to develop a simple way to use my initials of my name and surname. I came up with this result after different versions and drawings. Taking inspiration from the brands logos style of "haute couture". The "S" perfectly follows the curve of the "R" while giving an elegant style.
